1.Minimum credits required to graduate:134.

2.Required courses: 82 credits; elective courses: 24 credits (excluding credits earned from university-wide common core requirements and general education courses)

3.University-wide common core requirements and general education courses total 28 credits. The relevant regulations are based on the school's "Implementation Regulations of Courses in the College of General Education", "Course Schedule of College of the General Education," and "Implementation Regulations of Language Education".

4. Credits earned by students from the common courses offered by their respective colleges shall be accepted as their affiliated departments' professional courses. However, credits earned from interdisciplinary courses offered either by their colleges or by other colleges will be accepted as credits earned from departments outside their own.

5. Departmental requirements (programs, certifications, licenses, recognition of external department credits, prerequisite requirements, credits needed for each teaching division, and other requirements):

A.Our department offers specialized programs: "**Polymer Materials Program**" (required 4 courses), "**Optical-Electrical Materials and solar cell devices Program**" (required 5 courses), "**Manufacturing Process of Semiconductor Material Program**" (required 5 courses), and "**Green technology and Fuel Cells Program**" (required 5 courses) for student reference. These specialized programs include both required and elective courses. Required courses include: General Chemistry I or General Chemistry. Elective courses are listed in the course schedule under "Professional Electives."

B.The students who completes any of these programs with passing grades will receive a completion certificate from our department upon review.

C.Out of the elective credits for the department, 12 credits may be taken from non-departmental and non-general education courses.

D.The listed electives are planned courses and will be offered according to the actual needs of each semester.
